### **KOURY CORPORATION IMPLEMENTS SCI'S FOOD-TRAK® FOOD AND BEVERAGE MANAGEMENT SYSTEM**

**Scottsdale, AZ – July 29, 2008** – System Concepts, Inc. is proud to announce that Koury Corporation in Greensboro, North Carolina – a real estate development and management company - is among several new hotel clients who have selected and are now implementing SCI's FOOD-TRAK® F&B Management System.

"We chose SCI and FOOD-TRAK® because they have an excellent reputation in the market and they have an extensive client list. We had to make sure that FOOD-TRAK® had enough horsepower for our large properties and it did," said Dennis Stephens, Controller of Koury's Hospitality Division. "Our food and beverage controllers are looking forward to having a useful tool to allow them to do their jobs efficiently and effectively, and also give them the ability to provide information back to the properties and the executive chefs as far as menu selections, menu costing and making sure that we're making good decisions."

Koury Corporation manages three hospitality properties where FOOD-TRAK® is being implemented. The Sheraton Greensboro at Four Seasons is considered the premier meeting and convention center in the southeast, and is Koury's flagship property with 1,000 rooms and 350,000 square feet of combined meeting and exposition space. The luxurious Grandover Resort and intimate Park Lane Hotel are also owned and operated by Koury Corporation.
