

# FOOD®TRAK®

## ON-SITE TRAINING SERVICES

### OVERVIEW

SCI's implementation and training specialists travel to client locations around the world providing a wide variety of training services. These services range from previously developed FOOD-TRAK® University courses which cover various key functions within the system to completely customized courses that incorporate client policies and procedures. **On-Site Training** maximizes your training dollars by training multiple employees on subjects that are important to your organization.

Staff members can be scheduled for shorter or longer time periods, allowing for efficient, topic-specific training in less structured, more personalized sessions. Trainers work with your staff members individually or in small groups. Our one-on-one "coaching" sessions are ideal for helping new users become familiar with the system and can also be instrumental in speeding up the implementation process.

We also provide customized management training sessions that focus on report analysis and action planning and are designed to help managers receive the maximum benefit from the FOOD-TRAK System. Management sessions can also include trainer-hosted brainstorming and roundtable discussions to help address policy and procedural issues.

### How It Works

On-site training can be conducted during a client's normal business hours and scheduled as they see fit. The training fee covers an eight-hour workday so each client can determine the training hours that work best for all staff members involved. Since training schedules are customized, clients work with their FOOD-TRAK Account Manager to design the most efficient and practical agenda and training setup for their unique operation. The options are limitless and scheduling is flexible!

### INVESTMENT

Training fee = \$1,500/day (2 day minimum)

Travel expenses\* include airfare, lodging, transportation and meals.

\*Billed separately upon completion of the trip. A 50% deposit is required in advance to secure the on-site training dates. The remaining deposit is due 1 week prior to the first day of training.

Please contact an  
Account Manager for  
additional information  
and pricing.

DEVELOPERS OF FOOD-TRAK  
FOOD & BEVERAGE MANAGEMENT SOFTWARE

❖ *"The greatest benefit with on-site training is having the trainer right there in front of us, someone who knows the system inside and out and is able to walk us through each of our questions and show us shortcuts to make processes easier. It used to take us two days to complete a full inventory. We've got it down to three hours now, thanks to all the advice and recommendations from our trainer. We believe in ongoing education with FOOD-TRAK and are always looking ahead towards our next visit."* ❖  
- F&B Warehouse Manager, Jackson Hole Mountain Resort
